SOVIET IS POLLUTING WORLD THROUGH USE OF HER CLERICALS

Berlin, Dec. 28.—A clergyman of the Russian living church, named Wredenski, has been sent to the United States by the "Third Internationale" to conduct red propaganda. It was learned by International News Service after a searching investigation of the ramifications of the Russian propaganda system.

It was established beyond doubt that George Tchitcherin, Commissar for Foreign Affairs in the Soviet government at Moscow, has repeated iron clad orders that no one connected with the Russian diplomatic or consular service in any capacity whatsoever may directly or indirectly engage in Communist propaganda. Tchitcherin instructed the Russian envoys to direct their entire attention to legitimate government business.

However, the "Third Internationale" still feverishly active spreading propaganda for world revolution. Every conceivable agency of publicity is being employed by the officials of the Third Internationale. A branch, specializing in propaganda in England and America has established headquarters at Bonn on the Rhine in the occupied area of Germany. It is conducted by a Russian named Barnimarkovskii. It was Barnimarkovskii who gave directions to the clergyman, Wredenski as to how to proceed in the United States.

Wredenski is understood to have worked his way to New York as a steward upon a steamship.

WILSON'S BIRTHDAY

Washington, Dec. 28. (INS.) Today Woodrow Wilson's 67th birthday.

He passed it in the privacy of his days now, resting and reading in his quiet secluded home on 34 street, with a daily motor ride through the hills of Virginia and Maryland to break the monotony.

Hundreds of telegrams and messages were received at the 34 street house today, some of them from abroad.

The ex-president was said to be in his usual health.

Friends of the former President surprised him on his birthday today by presenting him with a new automobile of special design and build. Names of the donors were kept secret. Mr. Wilson was not aware of the gift until he ordered his car for his usual afternoon drive.

A GHASTLY CHRISTMAS

On Christmas morning citizens of Whitefield, Me., dug up the body of John Snow, shown here with wife, and burned it. Snow killed his wife his wife's mother, her aunt and the latter's son. Then he killed himself.

MOTHER, IN AN INSANE FRENZY, BURNS TWO CHILDREN TO DEATH; A THIRD IS SAVED BY BREAKING OF CLOSET LOCK

Ute, Iowa, Dec. 28. (INS.)—Mrs. Fred Vauss, under hospital care for burns on her face and neck, sought in vain today for an answer to her question:

"Where are my babies?"
A three-months-old baby and Eldon, 15 months old, were dead after their mother's insane frenzy had converted the smallest child into a charred and soaked torus and impaled the other brother with his sister. Iron bars in a closet filled with kerosene oil soaked clothing.

The mother's mind was a blank concerning the tragedy, hospital attendants believed.

Fred Vauss, father of the fire victims, said he was working in the barn

yard of their farm home when Mrs. Vauss wrapped the baby in blankets laid it on the bed, poured kerosene over its clothing and set fire to it, then poured oil over clothing in a closet, set it ablaze and locked Eldon and Irene in.

The little girl broke the lock on the closet door and escaped from the flaming room.

The father broke a closet window and got Eldon out, but the boy died from his burns in a hospital.

The father attempted to reach the baby's blazing form on the bed with a rake, but the bed was too far from the window and the flames made it impossible to enter the room.

H. C. Mall Named Head Minister Shurman May Of Interstate Commerce Be In the Danger Zone of Commission By Election Latest Rebellion In China

Washington, Dec. 28 (INS.)—Henry C. Mall of Colorado Springs, Colo., today was unanimously elected chairman of the Interstate Commerce Commission, to succeed B. H. Meyer. He will serve one year.

OLD LOG DRIVER IN TOWN

Port Pyles, of Curwensville, was in town today getting his shoes "corked up" preparatory to getting a job on the "drive" this spring. He said he was told that Johnny Merrill and his Anderson Creek drive might reach the river by March 25th, if the water held out.

Harold Morton is spending his vacation at his home.

Mary Aughenbaugh is spending her vacation with her aunt, Mrs. Mullen, in the country.

Manila, Dec. 28. (INS.)—Reports were received here today from Chinese sources that a new rebellion has broken out in Yunnan province in China.

According to the advices received here some anxiety is felt for the safety of U. S. Minister Jacob Gould Schurman, who is reported within the zone of the civil disturbance.

KYLERTOWN MAN DROPS DEAD

John Hamlin, of Kylertown, well known Cooper resident all his life dropped dead yesterday afternoon. Mr. Hamlin had hauled a load of mine ties to Winburne, and was on his way back home when death seized him. He was stricken while driving his team, falling out of the wagon dead.

REBELS ADVANCING FOLLOWING VICTORY OVER FEDERAL ARMY

Vera Cruz, Dec. 28. (INS.)—Revolutionary troops on the Jalisco Front are advancing today following a decisive victory over the federales under General Lizaro Cardenas and General Paulino Navarro in a 12 hour battle, it was announced by Huertista headquarters.

General Cardenas was wounded and taken prisoner, along with 600 federal troops. General Navarro was killed in action.

A report of the fight was telegraphed from Guadalajara by General Enrique Estrada. He called it the most important engagement yet won by the Revolutionaries in Western Mexico.

Revolutionary forces under General Rafael Buelna made a forced night march across the mountains at Concepcion De Buenos Aires attacking the federales in the rear.

The attention of the federales had been concentrated against the Revolutionary troops under General Garcia and General Castro that were advancing from Ciudad Guzman.

General Cardenas' army was considered the strongest federal force in Jalisco.

FINDING OF DIXMUDE COMMANDER'S BODY SOLVES MYSTERY OF THE LOST AIR VESSEL

By HARRY FLORY

(I. N. S. Staff Correspondent.)
Paris, Dec. 28.—The tragic fate of the giant French dirigible Dixmude was revealed today when official announcement was made that it had been lost in the Mediterranean.

The body of the commander, Lieut. Commander Duplessis, was picked up near Sicily by Italian fishermen.

It is feared that all the fifty persons on board were drowned.

The Dixmude had been missing ten days.

French, Italian and British destroyers are searching for the missing bodies.

News of the loss of the great airship followed a report that it had been sighted south of Insalah, in the Sahara Desert. Hope that the crew and passengers might be safe was turned into sorrow by news of the finding of the body of the commander. This news made it certain that the Dixmude, helpless from lack of fuel and a disabled motor, had been forced down into the sea.

The Dixmude had set out from the air base at Toulen ten days ago to fly (Continued On Page Two.)

Believe Dixmude Captain Stuck To Ship And Gave Others Chance For Life

Paris, Dec. 28. (INS.)—Minister of Marine Raiberti held out hope today that parachutes on board the lost dirigible Dixmude may have saved the lives of some of the passenger and crew. The minister believes that Lieut. Commander Duplessis de Grenedan stuck to his ship to the last, dropping into the sea with it. If others on board used parachutes they may have been picked up by passing steamships or reached shore.

THEY WOULD SCARE ANYBODY

Pittsburgh, Pa., Dec. 28 (INS.)—A mechanical piano turned burglar alarm early this morning and prevented the looting of a restaurant in Wylie avenue. Three men forced an entrance to the building and as they attempted to force the cash box open the piano a tuneless melody issued forth arousing persons living above the restaurant.

The burglars fled.

Sergeant Samuel Woodfill, called by General Pershing "the greatest individual of the war," was discharged recently at Fort Benjamin Harrison, Indianapolis, with full military honors. Brig. Gen. Dwight S. Aubrey (left) presented the discharge.

Abe McKee Is Released Leutenbergs Liberated From Cell Today; Will So They Can Look After Return Home To Mother Children; Might Have A His Scattered Family Christmas Dinner Now

Abe McKee, of Kerrmoor, who killed Robert Tubbs, a fellow workman on a New York Central section crew near Kerrmoor in the fall of 1922, and who was sentenced to serve two years in jail after being convicted of involuntary manslaughter for the crime, was released from jail on parole granted by Judge Bell this morning.

McKee went to jail on January 3d last, and Judge Bell very rightfully felt that the ends of justice had been served by his nearly twelve months in jail.

Tubbs was killed by a blow on the head from a shovel wielded by McKee, following a trifling quarrel or jangle between the two men, lifelong neighbors and friends.

McKee was the father of six children, whom he was keeping together and raising, his wife having died several years ago. He left for home today and said he would endeavor to round up his family of little ones, now scattered among relatives and strangers, and would again attempt to make a home for them.

Alleged Murderer Is Unable To Take Food

Hagerstown, Md., Dec. 28 (INS.)—Millard Goodhart, alleged murderer of Chester Smith, Sandy Hook, who is being held at the Washington county jail pending a hearing before Justice Keller at Dargan, has been unable to eat for the past five days because of injuries about the face which he claims to have received at the hands of Smith, the man he is said to have killed.

Goodhart told Sheriff Duffey today that he was severely beaten by Smith and a number of other men on the night of the shooting.

His present inability to eat is laid to the manhandling he claims to have received, wherein it is said that he was struck by a monkey wrench in the hands of Smith.

ASSERTS SCIENCE, IN THE NEAR FUTURE, WILL BE QUITE ABLE TO PREDETERMINE, REVERSE OR MODIFY SEX DEVELOPMENT

Cincinnati, O., Dec. 28 (INS.)—Science, in the near future will be in a position not only to predetermine but to reverse or modify sex or other bodily or mental characteristics, Dr. Oscar Riddle, of the research staff of the Carnegie station for Experimental Evolution at Cold Spring Harbor, New York, told the American Society of Zoologists today.

In detailing the history of complete sex reversal observed in a female dove, which, because of a tuberculosis infection, affecting the spleen and liver, became a male with all male characteristics, Dr. Riddle said this was of course, an item of universal interest to the general public.

"The scientific interest and importance of the demonstration can however scarcely be exaggerated," he

continued since the result clearly indicates that the hereditary basis of no bodily or mental characteristic may be considered as irrevocably fixed and uncontrollable.

One of these characteristics, known to be hereditary and also known to be controlled through the so-called "Chromosomes" of the germ cell has been shown to become capable of reversal to the alternative form.

"It, therefore, becomes wholly probable that all hereditary characteristics of every human being, and of every organism are capable of reversal and modification, and that the accomplishment of such modification and control is a matter which merely awaits the definitely directed efforts of investigators in this branch of science."

ISAAC BISHOP NEAR DEATH AS A RESULT OF CHURCH ASSAULT

Hagerstown, Md., Dec. 28. (INS.)—Isaac Bishop, who with his wife and Mr. and Mrs. L. A. Richards, was brutally attacked and beaten by a band of moonshiners who assailed the Methodist Church at Black-Deek Monday night, is today lying at the point of death at his home near McConnellsburg. Physicians who are attending him hold out little hope for his recovery.

Meanwhile the men who are responsible for his present condition exhibit little concern over the matter and are to be seen about their daily tasks, apparently caring little about the consequences of their deed. One of the leaders of the mountain band, who is nearly 70 years old, was to be seen in Hancock yesterday.

Investigation subsequent to the attack on the church has thrown no additional light on the motive which actuated the band. It is said that there was no particular feeling against Bishop or Richards but the band was incensed against the whole congregation who, it is said, were responsible for reports of the moonshining activities leaking out.

Presbyterian Choir Is To Sing At The Community Christmas Tree Tonight

This day has all the earmarks of Christmas weather and this evening will appear all the more so owing to the scheduled appearance of a large choir at the Community Christmas tree on the court house corner. It was the plan of Community Service to have a musical attraction there each evening but the weather and some other factors have prevented it. This evening, however, unless there is a blizzard or the snow turns to a bad rain, the Presbyterian choir will be at the tree to sing anthems and carols. This outdoor singing will be worth while as in the choir will be many of the singers who are popular with Clearfield audiences.

The choir will begin its performance promptly at eight o'clock as Bill Shneider is furnishing the piano and Bill Holmes has been good enough to agree to place it.

LOW DEATH RATE ON POISON LIQUOR SHOWS PUBLIC IS OBEYING DRY LAW

Philadelphia, Dec. 28.—Elated by strides made in enforcement of the Volstead act during the past year, but still unsatisfied with results as a whole, Prohibition Enforcement chiefs here today declared their aim for 1924 will be to "interest local enforcement officers in rigid enforcement." The aim is applicable to the entire country.

R. B. Sams, divisional chief in charge of two-thirds of Pennsylvania and Southern New Jersey, was jubilant over "real advancement especially in the attitude of the people toward prohibition."

WE NEED A PUMPER

The Clearfield fire department needs a pumper, the recent fire at the New York Central yards demonstrating that fact anew.

The present steamer should be motorized or a gasoline pumper supplied. All damage to the coal docks adjoining the docks would have been avoided with a better force to the water, and an engine attached to the plug at Seventh and Bigler avenues, would have supplied the needed force.

over the Mediterranean to Algeria.

It was charged that the commander failed to communicate with the air ministry before departure of the ship and failed to take the precaution of learning future weather conditions.

The last message from the Dixmude was a radiogram last Friday night inquiring about atmospheric conditions over Northern Africa.

According to information from Naples the body of Commander Duplessis was identified by papers in the pockets. His body was received on shore with military honors. The body was found floating on the water off Sicily on the Italian coast.

Vessels searched the vicinity for traces of the airship, but none were found. Officials of the Ministry of Marine were skeptical of the report that the airship had been sighted over the Sahara Desert when it was known that she had not sufficient fuel on board to keep aloft until Wednesday, the day upon which natives reported to the French Garrison at In-salah that they had seen an airship in the sky. It is believed that the natives saw a French airplane, which was searching for the Dixmude and mistook it for the missing airship.

Hope that some of the fifty passengers on board may have escaped death has not yet been abandoned. It was pointed out that the Dixmude carried parachutes and that some of them may have attempted to reach safety through use of them.

The same chivalry of action that obtains on the sea prevails upon air craft and if there were not sufficient parachutes to go around the captain and some of his officers may have stuck to the doomed ship.

Following receipt of the report from North Africa that natives had sighted an object in the sky they thought was the Dixmude the various French garrisons on the African coast were ordered by wireless to intensify their search, especially in the interior of the Sahara Desert.

Detachments of searchers started in the direction of the Hoggar mountains where the air currents were known to be very dangerous.

When the Dixmude left Toulon on December 18, it was expected that she would reach her destination in 72 hours. Forty-eight hours later she was reported from the French naval station at Biserta on the African coast.

Commander Duplessis de Germond (to give his full name) was an expert air navigator. There were nine air captains on board the lost airship. The Dixmude was built by the Zeppelins in Germany and was one of the biggest and finest airships in the world. She broke both the endurance and long distance records last September by travelling 4800 miles in a continuous flight of 118 hours and 41 minutes.

DEATH VISITS SNOKE HOME TWICE IN ONE WEEK

The home of Samuel Snoke, on South Third street, was twice visited by death within the past week. On December 19th Samuel Snoke, Jr., died at his home in Philadelphia, and his body was brought to the home of his parents where funeral services were held. Last evening at 8:40 o'clock the death angel again paid a visit to the Snoke home. This time the husband and father, Samuel Snoke, Sr., a civil war veteran and resident of Clearfield for more than forty years, received the final summons. Mr. Snoke had been an invalid for the past five years, but for the past six weeks his death has been almost hourly expected. During all his sufferings he was patient and uncomplaining and never once lost his faith in God. He was a member of the Methodist Church for over fifty years, was a good citizen, a loving husband and father, whose death will be sincerely mourned.

Samuel Snoke was a soldier of the civil war, enlisting at the age of 17 years as a private in Co. D, 149th Pa. Burkhills, Vol. Inf., Third Brigade, Division 1st A. C. He was honorably discharged June 24, 1865. On

big fall-off in deaths from liquor and arrests for violations over the Christmas holidays, were indicative of an awakening on the part of the people that has been progressing gradually throughout the entire year," Sams said. "We prefer to give the public credit for the trend toward realization of prohibition enforcement, but it is natural to suppose that our efforts to cut off the supply has helped greatly."

County Tax

"We are gratified by the fruits of the year's work, but not satisfied. We will not be satisfied as long as anything is left to be done. Our aim for 1924, expressed in a letter from federal prohibition commissioner Roy A. Haynes, will be to interest local enforcement officers in rigid enforcement on the liquor laws. In Pennsylvania and Southern New Jersey we are getting exceptional co-operation from state authorities, but county authorities and those in localized sections need not be brought in to make enforcement really effective," Sams declared.

Christmas has established a precedent, Sams believes, which will be adhered to on New Year's eve and day. He expects the "now educated public" to seek a pleasure medium other than liquor.

August 3, 1866, he re-enlisted in Bat. K, 4th U. S. Army, serving until August 3d, 1869, when he was honorably discharged at Ft. Delaware.

He leaves a sorrowing widow and the following children: Mrs. H. B. Williams, Mrs. Jay Glover, Jay and George, of Philadelphia; Mrs. Will England, of Haddonfield, N. J.; Mrs. Lewis Rager, of Williamsport, and Harry, at home. The eldest son, Charles Snoke, died ten years ago; Samuel last week, and a daughter, May, in infancy. The family have the sympathy of all in their bereavement.

I Spent \$100,000

To find these ways to youth and beauty

By Edna Wallace Hopper

My mother was rich and ambitious. She went with me to search the world for the greatest beauty helps in existence. They cost us a fortune and many years of time. But they made me a famous beauty. I became the rage. And now, at the age of 62, they keep me a beauty still. I have seen these same beauty helps bring to many plain girls multiplied attractions. To some they brought careers of beauty. I have seen them bring to countless women decades of added youth. So now I have placed these matchless helps at every woman's call. And I am doing my best to urge women to employ them. You need but four.

I found 32 great beauty helps. But French experts combined them in four preparations. So these results came very easy to me.

One is a super-clay. Not like the crude and muddy clays you read about today. This clay is white, refined and dainty. It has been perfected by 20 years of scientific study. I call it my White Youth Clay. Before I found it I never knew one-tenth what clay could do. Clay is a beauty essential. It purges the skin of all that clogs or mars it. It creates a rosy glow. It firms the skin, combats all lines and wrinkles, reduces enlarged pores. It has brought to millions new complexions. But my White Youth Clay vastly exceeds the old types. The cost is 50c and \$1.00.

My Youth Cream. My Youth Cream combines both lemon and strawberry. Also all the best French experts know to foster the fine texture of the skin. I use it after the clay. Also as a

night cream, also daytimes as a powder base. I am never without it, to whiten, soften, feed and smooth the skin. I have never known another cold cream to bring comparable results. My Youth Cream costs 50c.

My Facial Youth is a liquid cleanser which does what nothing else can do. The greatest beauty experts now employ this formula, but they charge for it a price which few can pay. Facial Youth contains no animal, no vegetable fat. The skin cannot absorb it. It simply cleans to the depths then departs. All the refuse, grime and dirt go with it. The other method cleans the skin like Facial Youth. The cost is 75c.

My wonderful hair. Millions of women envy my hair. It is thick, silky and luxuriant. I have never had dandruff or falling hair, never a touch of gray.

The reason lies in my Hair Youth. I apply it daily with an eye dropper, directly to the scalp. It removes the hardened oil and dandruff which stifle the hair roots. It stimulates and fertilizes. You will be amazed to see how hair thrives when the scalp is kept in shape.

My Hair Youth costs 50 cents and \$1 with eye dropper. The results come quickly. I hope you will learn what it means to your hair.

To those four products I owe my beauty and youth. Now all drug-gists and toilet counters supply them to all who want like results. For the sake of all you prize most, go learn what they can do. Edna Wallace Hopper. Business address, Waukegan, Wis.

NOTE: Miss Hopper is now playing the Pantomime Vaudeville circuit of the Western States.

The offices of Prothonotary and Register and Recorder in Clearfield county go upon a salary basis on Monday, January 7, 1924, when George W. Balston as Prothonotary, and Milford Bratton as Register and Recorder assume the offices to which they were elected at the general election last November. The salary law passed by the last legislature provides a salary of \$4,000 for the Prothonotary and \$5,000 for the Register and Recorder.

However, those lawyers who have read the salary law and are familiar with its terms and provisions, give it as their opinion that the "wolf," to get to the door of either official, will have to crawl over greater barriers than the \$4,000 and \$5,000 per year aforementioned. The salary law sets aside \$4,000 for the Prothonotary and further provides that the clerk of the courts shall receive \$3,000 per year for his services, and as in Clearfield county the Prothonotary and Clerk of the Courts are one and the same person, these legal experts contend that Mr. Balston under the salary law will be entitled to and will receive \$7,000 for his services in his double-barreled office.

The Register and Recorder is also Clerk of the Orphans Court and the law provides a salary of \$3,000 for performing the latter duty in addition to the \$5,000 Mr. Bratton will receive as Register and Recorder, making the combined salary for the office \$8,000.

Approximately 200,000 children under 18 years of age passed through the courts of the United States during the past year, according to recent figures compiled by the National Probation Association. In the juvenile courts, where probation officers are employed, more than 75 per cent of the children were placed on probation, given an opportunity under proper supervision to demonstrate the fact that they were not basically bad. Eighty per cent of these children placed on probation make good.

There has been a sharp decline in the number of lynchings in the United States during the year 1923, the figure being twenty-six as against sixty-one in 1922.

Mississippi and Florida lead the list of lynching states with five mob murders each. Georgia is second with four. Oklahoma is third with three. Arkansas, Alabama and Texas have two each. Other states in which one lynching occurred are Louisiana, Missouri and Virginia.

Only seven out of the twenty-six persons were charged with attacks upon women, and in the case of one of the seven, the janitor of the University of Missouri, grave doubt was subsequently cast upon the guilt of the mob's victim. Other offenses for which lynchings occurred include mistaken identity, aiding in escape, associating with white women, being in an automobile accident, remaining in a town where negroes were not wanted and frightening white children by walking harmlessly along a country road. Two of the victims of lynching mobs were white men. One colored woman was lynched in Pickens, Miss.

Joint-Ease For Stiff, Swollen Joints

Rheumatic or Otherwise

Says: "When Joint-Ease Gets In—Joint Agony Gets Out."

It was a high class pharmacist who failed to help hundreds of his customers to get rid of rheumatic swellings and stiff inflamed joints.

And it was this same man who asserted that a remedy could not be compounded that would make creaky, swollen, tormented joints work with just as much smoothness as they ever did.

Now this prescription, rightly named Joint-Ease, after being tested successfully on many obstinate cases is offered through progressive pharmacists to the millions of people, who suffer from ailing joints that need liberating up.

Swollen, twinging, inflamed, stiff, painful joints are usually caused by rheumatism, but whatever the cause Joint-Ease soaks right in through skin and flesh and gets right in and corrects the trouble at its source.

Remember Joint-Ease is for all aches, pains, whether in ankle, knee, hip, elbow, shoulder, spine or finger, and when you rub it on you may expect speedy and gratifying results.

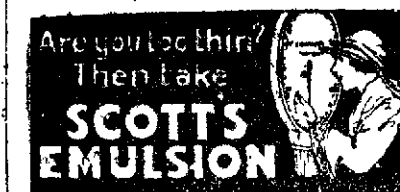

It is now on sale at all drug stores everywhere for 60 cents a tube.

The fact that our neighbor city of DuBois is "slipping" in a business way and has been for some time has long been apparent to outside observers. Some idea of the extent of the "slip" can be gained from the fact that during the past year no less than five of the city's leading and best known doctors have decided to pull up stakes and depart for other scenes where there are fewer "dead ones" and more live folks to minister to.

The last three to conclude they have had enough of DuBois are Dr. J. G. Hilleary who will locate in Los Angeles, Cal.; D. J. McCullough and Dr. J. B. Nelson, both of whom will locate in Pittsburgh.

Dr. Hilleary has been a resident of DuBois, since along in the early '90's. Drs. McCullough and Nelson are dentists, the former has been practicing in DuBois for seven years and the latter for five years.

The departure of the three doctors, follows closely upon the heels of the departure of Drs. F. L. Schumacher and B. A. Beale, all in the past year.

are already known, having been announced by Secretary Mellon himself some time ago. Some features, however, are new, and chief among these is the proposal for the creation of a federal board of tax appeals to consist of not less than seven nor more than 25 members. The members would receive an annual salary of \$10,000 each, and would be appointed by the Secretary of the Treasury. The board would be mobile and sit in different sections of the country.

Reductions. A deduction of 25 per cent would be allowed on "earned income," in the sense that such income consists of wages, salaries or professional fees. Nominal income taxes would be reduced from 4.95 per cent on the first \$4,000, from 5 to 6 per cent on over \$4,000 and under \$10,000. The surtaxes beginning at one per cent on all over \$10,000 would be graduated to 25 per cent on incomes in excess of \$100,000, instead of the present surtaxes that range from one to 50 per cent.

No More Nuisances. The so-called nuisance tax, i. e., taxes on telegraphs and telephone messages, theatre tickets and some

articles of merchandise, whose value is not greater than \$5, also would be repealed.

Will Simplify. In addition to these changes, the Mellon bill also attempts to simplify some of the complexities of the tax law in general. Some of the changes proposed were:

The term used in the tax laws is broadened to include an individual, a trust or estate, a partnership, or a corporation.

Domestic corporations or partnerships are construed to mean such created or organized in the United States or under the law of the United States or of any state or territory. Foreign corporations or partnerships are such as are not domestic.

Deductions and credits shall be taken for the taxable year in which paid or accepted or paid or incurred.

Stock includes the shares in an association, joint stock company.

Distributions by corporations to shareholders from increase in value of property accrued before March 1, 1913, if in excess of the basis of stock provided by law, shall be taxable as a gain from the sale or exchange of property.

Distribution by a personal service corporation out of earnings or profits shall be exempt from tax to the distributees.

Stock dividends are not taxed, but where there is a cancellation of stock to the extent that the dividend rep-

resents a distribution of earnings or profits accumulated after Feb. 28, 1913, the dividend shall be treated as a taxable dividend.

Gain from the sale or other disposition of property shall be construed as the excess of the amount realized therefrom over the basis provided by law, and the loss shall be the excess of such basis over the amount realized. If the property was acquired prior to March 1, 1923, the fair market value of that date shall be the basis. Adjustments shall be made for exhaustion, depletion or other causes.

Depletion allowance on mines, oil and gas well discovered by the taxpayer after Feb. 28, 1913, shall not exceed 50 per cent of the net income computed without allowance for depletion.

Deductions otherwise allowed by law not attributable to the operation of a trade or business regularly carried on by the taxpayer shall be allowed only to the extent of the amount of the gross income not derived from such trade or business.

Net loss in excess of net income for any year can be deducted from the succeeding year net income.

Essence of Selfishness. Posthumous charities are the very essence of selfishness, when bequeathed by those who when alive would part with nothing—Calumet.

READING PAYS STATE MILLION IN TAXES

Harrisburg, Pa., Dec. 28. (INS.)—The Reading system today paid into the state treasury \$1,068,473.50 as a result of the merger of its constituent companies, recently approved by the Public Service Commission. Companies merging are required to clear up all taxes to the state before the action becomes effective.

NEW LAMP BURNS 94% AIR Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94 per cent air and 6 percent common kerosene (coal oil). The inventor, S. K. Johnson, 643 N. Broad St., Philadelphia, is offering to send a lamp on 10 day's FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

Calumet Baking Powder has more than the ordinary leavening strength—therefore you use less. It is by far the most economical baking powder.

You pay about half the amount asked for high-priced brands. It goes twice as far as most other brands—so you save when you buy it—you save when you use it. But the most important economy of

CALUMET

The Economy BAKING POWDER

is in its superior quality. Regardless of price, Calumet is the highest grade baking powder made—that's why its sale is over 150% greater than that of any other brand. It is absolutely pure in the can—in the baking. Calumet, wherever placed always gives satisfaction.

The millions of housewives who use Calumet secure better bakings at a more economical cost than those who do not use it.

With all this evidence of superiority—with all this proof of better bakings, why should you be satisfied to stand the exorbitant expense of over-priced powders or the faults and failings of cheap, inferior brands. You shouldn't—and you won't—after one Calumet bake-day trial.

Beware of This—

A pound can of Calumet contains full 16 ounces. Some baking powders come in 12 ounce instead of 16 ounce cans. Be sure you get a pound when you want it.

LETTING UNCLE SAM DO IT

The will of a well-to-do woman in Worcester, Massachusetts, contains a clause reading as follows:

"To my son—, I give no bequest, because he was wounded at the battle of the Marne, and I rely upon the bounty of a grateful government to provide for his necessities in case he is unable to provide for himself."

The government, of course, will be expected to provide for that wounded soldier if he ever needs help, and will doubtless do so. But what is to be thought of a parent who, in distributing the family wealth, deliberately discriminates against her soldier son, leaving the sole responsibility for him to an intangible government?

That son, while fighting for his native land, was also fighting "for his altars and his fires." Every soldier in war-time is really fighting for his home, for a country is but an aggregation of homes. And why should society collectively be more generous to a veteran for his service than his own kin?

The incident is mentioned not only as a curious phenomenon but for its bearing on public affairs in general. It is an extreme example of the prevailing tendency on the part of families, communities and states to cast all their burdens on "the government".

CLEARFIELD'S PRIDE

Every town has one or many things about which its citizens love to boast when they entertain visitors from out of town and about which they love to talk when they go away. Rarely do two persons from different communities meet without inadvertently making comparisons of their towns and what they have in them.

And what a glorious thing it is to go away somewhere and find that the fame of your city or something in your city has preceded you. It is as though you have been introduced and you are relieved from that very humiliating query of "where is that?"

Clearfielders can safely go to any town that has been visited by our American Legion Band and to any number of towns whose people have heard our band somewhere on its tours. The Clearfield Legion Band stands out as the one big town advertisement, even though its cost has been less than all of the other attempts made.

It is fine to know that the band is to be supported another year by means of the Honorary Memberships. Practically all who were Honorary Members have "kicked in" and there are many new ones. It really is an honor and Membership Certificates should be displayed. The more important part, however, is to pay up the membership fee promptly. Have you done so?

"IT'S THE MAN"

A story is told by Roger Babson of a big manufacturing concern whose salesmen were called together at a time when business was slowing down. They arose, one after another, and reported poor sales and a bad outlook. Soon the convention hall was full of gloom. The meeting, called to put more pep into the organization, was on the point of ruining its morale altogether.

Suddenly the chairman jumped up and announced that he needed a shoe-shine, and was going to stop proceedings to get it. He sent for a bootblack and got his shine right there on the platform, while the salesmen looked on in surprise. That convention, they knew, was costing their firm about \$100 every minute. Then the chairman called the meeting to order again.

"The bootblack who preceded this fellow," he announced, "couldn't make his guarantee of \$4.00 a day. This one is cleaning up \$20.00 a day. It isn't the market for shines," he shouted. "It's the man!"

The whole convention rose to its feet with a cheer. There

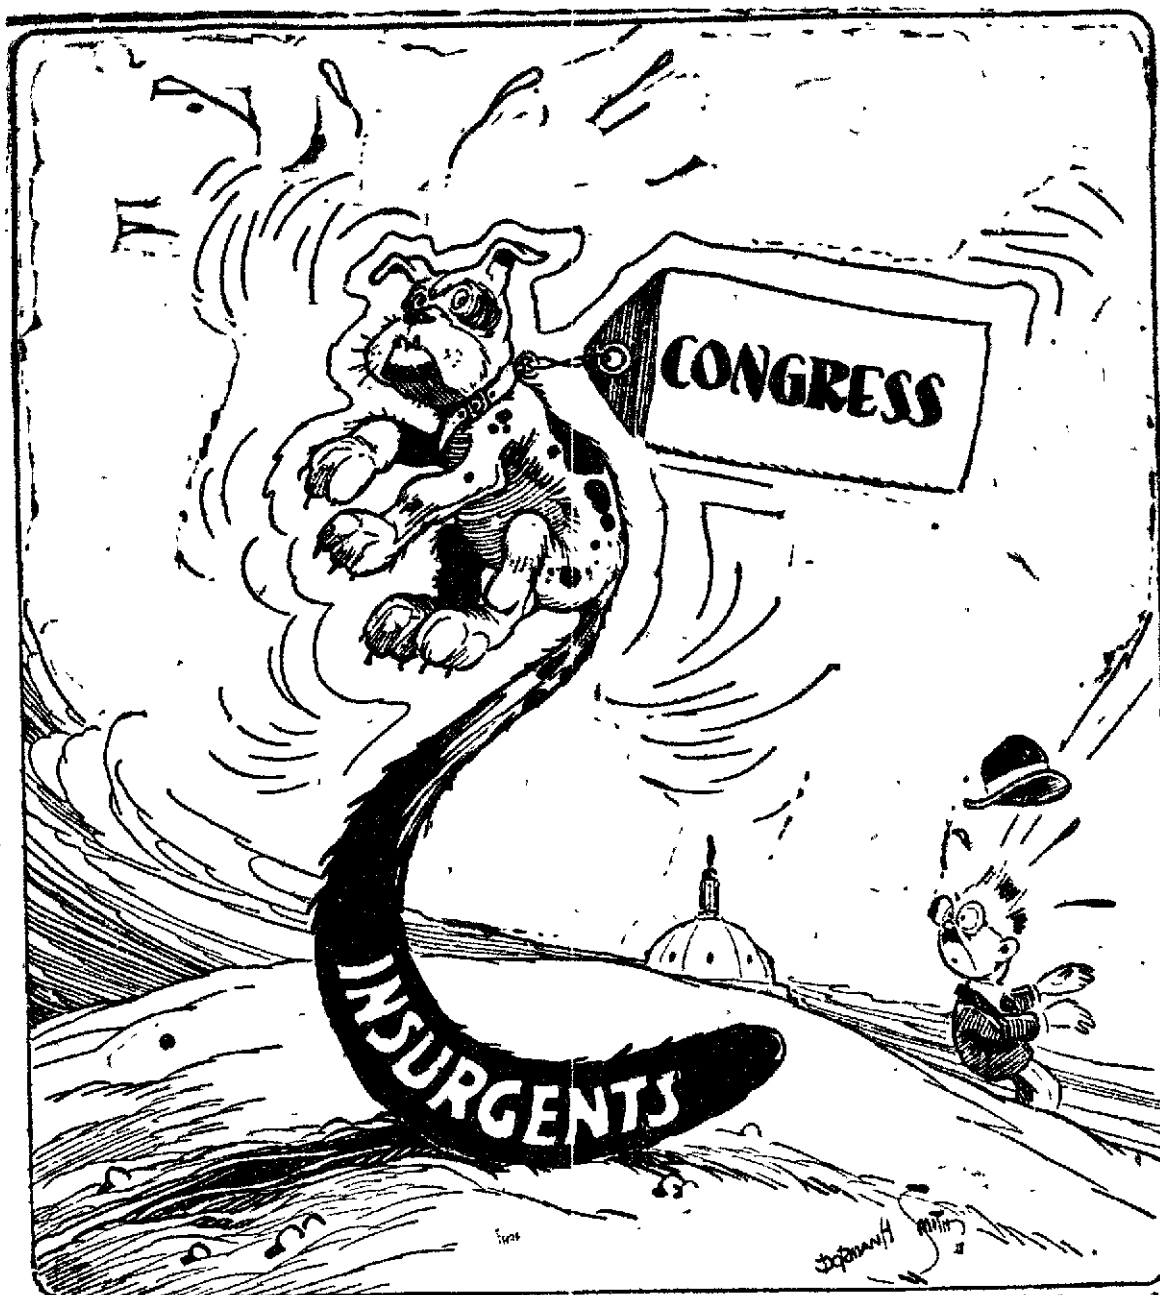

"A HAPPY NEW YEAR"

This is the time when the average person becomes thoughtful, thankful and hopeful. The Officers of The Clearfield Trust Company want to thank their many customers and friends, for their splendid co-operation and patronage during the past year. They have helped us and we hope we have also helped them. We wish them a Happy New Year.

The Clearfield Trust Company has had one of its best years and appreciates the business not only of its large customers, but of the smallest depositor as well.

The years past have seen many of our small depositors grow to be large ones and it is gratifying to us that we have played a part in shaping their destiny.

were no more gloomy reports and forecasts. The salesmen went back to their territory and turned in, during the next six months, the biggest volume of business in the history of the company.

That is the spirit in which to tackle the new year. It isn't the market that counts. It isn't the year. It's the man and the institution.

Noon Resume.

New York, Dec. 28. (INS.)—Rise of the opening trading gave way to a general falling off in values during the forenoon business on the stock market today. In addition to the selling for profit-taking purposes, selling also appeared to record losses for other purposes. The declines, however, were mostly fractional, except in the cases of a few specialties which slumped over a wider range. Corn products fell 3 points to 154½ and Cuba Cane Sugar Pfd. dropped 1 point to 62. Other losses were fractional.

PRINCE REGENT HAS NOT ACCEPTED QUIT OFFER OF CABINET

By DUKE N. PARRY

(I. N. S. Staff Correspondent)
Tokio, Dec. 28.—Prince Regent Hirohito today withheld action on the Yamamamoto Cabinet's resignation pending advice from the elder statesmen. It is understood a majority of the Regent's advisers are insisting acceptance of the resignations is imperative while others claim the cabinet must remain in power until after the wedding of the Prince Regent.

One of the most tragic results of the young college boy's attempt to assassinate the Regent was the ruin of the meteoric career of Viscount Shimpei Goto, Home Minister and Liberal, who was apparently destined for the Premiership. Assuming responsibility as home minister Goto was the first cabinet member to offer his resignation, following out the oriental practice of head officials assuming the blame for any thing that happens.

Progress Editorial For Women

WHO IS TO BE MASTER?
By FLORENCE DAVIES

Some very wise people sometimes forget some very simple things. For instance: A man is more important than his job.

That statement is often hurled at employers. But often it is the worker himself and not the employer who fails to remember it.

Usually the bigger the man, the bigger the job, the greater are the chances that he will spend himself without stint, while a little man with a little job never lets his job get the better of him.

But a big man with a big work to do often becomes so interested in his work that he forgets that after all he, John Smith, or who ever he may be, is vastly more important than the problem he is working upon.

Great artists and scientists will not agree with that. They will say that the work which they give to the world is vastly more important than their own little personalities.

Which may be true in eternity, but even a child philosopher can see that if the scientist or artist doesn't put himself first, he can't give his best to the world.

For instance: a professor in an eastern college who had been working for 22 years on a very fine lens for some great university laboratory ended his life not long ago.

The man apparently had no reason for dying, no disgrace, no fear, no enemies. The account of his death was meagre and failed to explain his act. But the reader inferred that the years of concentration on this one piece of work finally "got him".

as the saying is. He must have become so engrossed in it, that he allowed it to baffle him, to beat him, to get the better of him. But with all his skill as a scientist, this man missed the main point, which was that he, himself, not the lens was the big thing.

People who let their jobs own them and drive them miss that point too. They forget that if they would do their best by their work they must own themselves first.

A woman can't do the best by her home and family if she lets them own her or if she gets to the place where

she thinks that she herself doesn't matter.

She is the only thing that does matter, if she only knew it. She doesn't need to be told that hers must be a life of giving, or that through giving lies the road to her greatest happiness and success.

But she must know that there is a certain point at which giving must cease. She must learn to say "I have done what I could. Thus far I go, no farther. After this, the hours in the day are mine." She must learn to say once in a while "This thing is for me, I myself will have it."

Alas, the man who lets the great lens, even the greatest lens in all the world, get the better of him, should have known that the lens-maker is greater than the lens. If it baffled him, he had only to back the door of his laboratory and remember that he himself, not the lens, was master.

Three Good Habits.
There are three habits which, but one condition be added, will give you everything in the world worth having, and beyond which the imagination of man cannot conjure forth a single addition or improvement. The habits are the work habit, the health habit and the study habit.—Elbert Hubbard.

KILL AND ROB AGED MAN

Cleveland, O., Dec. 28. (INS.)—With Coroner A. P. Hammond holding an autopsy today to determine the exact cause of death, police were extending their search for two or more men who first bound and gagged Adam Wachtel, 79, then robbed and murdered him. His body was found last night in his apartment shortly after the murder. Two rifled pocketbooks were found near the body.

Police believe that Wachtel was strangled by the robbers, but Coroner Hammond holds the opinion that death may have been caused by a cerebral hemorrhage, induced by shock.

BUILDER OF FAMOUS PARIS TOWER DIES

Paris, Dec. 28 (INS.)—Alexandre Gustave Eiffel, builder of the famous Eiffel Tower in Paris, died today.

MOORE COMING HOME

Madrid, Dec. 28. (INS.)—Alexander P. Moore, United States ambassador to Spain, departed for home today upon two months vacation. General Primo Rivera bade him farewell on behalf of the Spanish Government.

COREY TO LEAVE U. S.

New York, Dec. 28 (INS.)—Wm. E. Corey, former steel king, whose wife divorced him recently because he could not live in France and she could not live in America, is going to France to live, according to announcements today by his friends.

4 YEARS EACH FOR SAILSTEAD AND GIRL

Superior, Wis., Dec. 28 (INS.)—While Edward J. Sailstad and his "Sunshine Girl" Dorothy Anderson, tried to choke their sons, they were sentenced today to four years imprisonment each for arson in connection with their famous grave yard hoax. Both pleaded guilty.

VETERANS GET 8 TO 15 YEARS

New York, Dec. 28. (INS.)—Eight to fifteen years in prison was the sentence passed today against Ernest and Marie Vetter, convicted of first degree manslaughter for the death of Alonzo J. Ebley, Mrs. Vetter's former admirer who was beaten to death at their home.

COOLIDGE VS. McADOO IS CAPPER OPINION

Philadelphia, Dec. 28 (INS.)—Senator Arthur Capper of Kansas, farm Elock leader, in an interview today expressed the view that William G. McAdoo and President Calvin Coolidge would be the presidential candidates of their respective parties in 1924.

"I believe President Coolidge undoubtedly will be renominated and elected," Senator Capper said. "As the Democratic situation stands at present, Mr. McAdoo has the inside of the track, and my view is that he will be his party's candidate and President Coolidge's opponent."

NEW CANDIDATE FOR SHIPPING BOARD

Washington, Dec. 28. (INS.)—A new candidate for appointment to one of the existing vacancies on the United States Shipping Board appeared today in the person of Rear Admiral Leigh C. Palmer, U. S. N., retired, who has been the Board's Brazilian Representative since his retirement from the navy. Palmer had a long conference with President Coolidge at the White House, last night concerning shipping board affairs.

Palmer is a Missourian, which would make him geographically eligible under the law which compels the President to distribute the personnel of the board over the whole country.

Edward F. Farley, of Chicago, whose appointment as Chairman the Senate refused to confirm, will retire on January 1. His formal resignation is expected to be sent to the White House today or tomorrow.

CONCESSIES TO BRUTAL CRIME

New York, Dec. 28 (INS.)—Having confessed to the murder of one young woman and suspected of similar crimes, Frank Benner, 26-year-old chef was to be questioned by detectives from Philadelphia and other cities today.

Benner also was to be arraigned on charges that he murdered Miss Estelle Phillips, on October 11, to which crime police say he confessed. In addition he admitted he assaulted Mrs. May Mitchell, pretty 30-year-old nurse at the home for consumptives, Chestnut Hill, Pa., on the night of Dec. 5.

The assault on Mrs. Mitchell and

Copenhagen Plant Of Ford Company Is Now Ready For Big Output

Detroit, Mich., Dec. 27.—By next spring the Ford Motor Company will have completed an immense new factory at Copenhagen, Denmark, which will be one of the finest in Europe in producing in that part of the world new standards in design and operation.

The growth of the Copenhagen assembly plant since its opening in June 1920, has been remarkable and it is now the second largest in the world. The plant is placed in a building held by the plant in Manchester, England.

A total of thirteen countries are served by Copenhagen. These include Denmark, Iceland, Faroe Islands, Sweden, Norway, Finland, Free State of Danzig, Estonia, Latvia, Lithuania, Poland, Ukraine and Germany.

The demand for Ford cars during the present year has been particularly good in the three Scandinavian countries, Denmark, Norway and Sweden and the Fordson tractor has come into extensive agricultural use. Construction work on the new plant at Copenhagen is well under way. The new building is 400 feet long by 300 feet wide. The outer section is two stories high with an inner court of one story with daylight roof. All stock will be moved on conveyors. The second floor will be devoted to an

exclusive body-making factory. The chassis assembly line, which will be on the same continuous production system as that employed in all American plants of the company, will be on the first floor.

A large power plant adjoins the main building. The new plant and property represents an investment of more than \$650,000.—Adv.

GIBBONS MAY COME YET

By Davis J. Walsh
(L. A. S. Sports Editor.)

New York, Dec. 28.—If it wasn't for the fact that the boys are just a bit set on going back for the rest of the loose money that Dempsey and Firpo left in New York the last time it might not be bad business to feed Tom Gibbons some of that Firpo diet just to see what would happen. Personally we believe that Gibbons would make the fur-bearing citizen look even worse than he actually is.

The boys are fully aware that the Senior must be preserved as is, until the harvest moon shines brightly on another Dempsey enterprise probably on or before July 4 next. They are shooting at a two million gate this time and that is entirely too many dollars to trifle with.

Firpo has one more big fight coming to him and it must be with Dempsey because the project is one of those form fitting, made to your measure affairs and needs no balmy.

Allowing the Senior to frolic with Gibbons, Harry Wills or any of those rough playmates would be nothing less than ruinous. Therefore, it shall not be. It is pleasing to note, however, that Gibbons at last has decided to capitalize the fact that he is the only man to stay the limit with Dempsey since the latter became champion. Everything was against Gibbons at Shelby, yet he hurt Dempsey on several occasions and proved that he is uncommonly fast, smart, game and tough. We happen to be one of the innocents who think the Shelby fight was on the absolute plumb-bob level. We also think Gibbons can do it again. He is stepping in the direction of another chance in meeting Fred Fulton. Gibbons should cut Fred down inside of three rounds.

After Freddie is picked up, tenderly, and borne away, Gibbons intends to come to New York to see what can be done about the situation. He cannot hope to interfere with the Dempsey-Firpo business, which is in the bag, but can find plenty of action in these parts, provided Jack Remick, Gene Tunney, Mike McGuire and other worthies care to accommodate him.

BIG VARSITY-ALUMNI CAGE GAME TONIGHT CENTER OF INTEREST

Interest in the annual C. H. S. varsity-alumni basketball game in the high school gym tonight is just as keen as in former years. The team composed of last year's champions is five are anxious to show local fans that they have lost none of the skill and team work that brought Clearfield its second league pennant.

The alumni team has in its lineup some former stars of other teams that have given the local High School the reputation that it has in a basketball way.

Capt. Harold Johnson of the 1922-23 quintet has had his team practicing faithfully during the present vacation period and the opposition they will furnish will probably cause the varsity no end of trouble.

Through the efforts of Faculty Manager Hoover, the high school team will go to Lancaster, Pa., to play the high school team of that city New Years evening. The Lancaster team was a contender for state honors last year.

The real event for which local fandom has been waiting is the opening of the league season of 1924 with DuBois High Friday, January 4.

JORDAN'S

HOLLYWOOD AT THE MIDWAY TOMORROW NIGHT

You'll not want to miss this chance to play in the movies. The Metropolitan Film Company will take moving pictures of the dancers and spectators at the Midway tomorrow evening. An expert camera man with powerful studio lights will take real movies exactly as taken in the studios at Hollywood. Mr. Pershing, director for the Metropolitan Company, after looking over the home at the Midway said it was ideal for movie work and believes that it will be a picture that audiences all over the state will find it a pleasure to look at. The Midway can accommodate 1500 dancers and 500 spectators so there will be a place for you. Be there and get a place in this picture if you have to throw your hat.

See yourself as a star. Admissions 10c.

Father And Son Have A Joyful Christmas After Twenty Year Separation

Cedar Rapids, Ia., Dec. 28.—After visiting together for a few days here Willie A. Merrill, 25, left for his home at Harrisburg, Pa., and his father, E. A. Merrill, an insurance agent of this city is the happiest man in Cedar Rapids. Merrill, Sr., had not seen his son since he was two years old.

Through unceasing search the son finally found his father and the reunion resulted.

W. A. Merrill holds a responsible position with the Penna. railroad.

Legion Band Concert For Dec. Will Be Given At Three Sunday Afternoon

On Sunday afternoon in the High School Auditorium, the Clearfield American Band under direction of Prof. H. Clark Thayer, will give its regular monthly concert at 3 o'clock.

The selections on the program for this concert are wide and varied so that every lover of good band music will find something to please his or her taste.

This is the regular December concert and is one of the series planned by the band management to have Clearfield folks keep in touch with the wonderful advancement "our own" is making.

TAILOR MAKES VALUABLE FIND

"After spending \$300 for medicine and doctors in four years without getting any benefit for stomach trouble and bloating I was induced by my druggist to try May's Wonderful Remedy and must say that a \$1.25 bottle has done me \$500 worth of good." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. At all Druggists.

One Eye- or One Arm?

Turned down again? Reason—only one arm. He finds it difficult to get a job because industrial efficiency demands that there be a complete man at every machine. Yet the successful applicant is frequently much less fitted for his work than the one-eyed man, for employment managers are hiring "one-eyed" workers without knowing it. In America there are twenty-five million people who don't realize that they need glasses. Call them "one-eyed," for two eyes which do not see properly may be of no more use than one.

If you are an employer have your employees' eyes examined without delay.

If you are an employee and your employer has not done this have your eyes examined at once.
